SOCIAL AND ORGANIZATIONAL SKILLS

Ability to work in teams in a variety of situations that require collaboration between different figures; ability to work with people from different cultures; ability to organize own work and those of others.

TECHNICAL SKILLS AND COMPETENCES

Excellent knowledge of Office packages (Word, Excel, Power Point), Internet Explorer and e-mail

PROFESSIONAL SKILLS AND COMPETENCES

Ophthalmic visits (children, adults)

Laboratory Tests (OCT, retinal angiography, perimetry, corneal topography, keratometry, tonometry, Autorefractometry, echography A-scan and B-scan, in vivo confocal microscopy)

Assistance in the operating room.

Good cataract phacoemulsification autonomy (more than 50 surgeries as first operator).

More than 100 glaucoma surgeries (trabeculectomies and draining devices) as second operator.

More than 50 vitreoretinal surgeries (retinal detachment, macular pucker, endophthalmitis) as secondo operator.

During my MD at University "La Sapienza" in Rome, I have been involved in research on ocular surface side effects of antiglaucoma drugs using in vivo confocal microscopy. I performed almost all the image processing and statistical analyses. I continued this kind of studies after my graduation too.

During my clinical training in Ophthalmology at San Paolo Hospital in Milan, I am focusing on various projects on glaucoma and retina. I am dealing with perimetric tests and imaging and I am taking part to some clinical trials too. I am mainly involved in glaucoma service; I have good autonomy in diagnosis and management in all types of glaucoma.

I authorize the use of my personal data according to Legislative Decree N°196/03
